

# FAT KIT

## 87BearsEP

FAT KIT is a musical duo from Prievidza, a small town situated in the middle of Slovak Republic. Robert Moncek is a guitar player from band called Talkshow and Pavol Kulich is a part of the label AJLAVMJZIK from its beginning.

The sound of FAT KIT is shaped by their previous works but contains new methods and approaches as well. It's a mixture of different styles, sounds and noises with melody. They don't use only classical musical instruments just as piano, guitar, drums, but other unconventional instruments as well: bottles, spray cans, beatbox...

Mysterious but simple and melodic music labeled as electronic based on real instruments. This album combines together different worlds of sounds, real instruments layered with noises, electronic music rised from analog approach.

This debut EP contains 7 tracks, three of them feature vocal appearances. First guest is Andreas from Talkshow. Second guest is a slovak singer Habbieľ.
